# PPE PROTECTION KIT

## PPE PROTECTION KIT

PPE PROTECTION KIT is used in medical institutions, general public, disinfection and sanitization team. Medical Face Shield protects and prevents the entry of toxic liquid spattering or splashing, harmful air bone microbes, and dust entering into our mouth, nose and eyes. It also prevents us from touching our eyes, mouth and nose subconsciously.

### FEATURES

#### Medical Face Shield

- ✓ Overall ergonomic design, lightweight and more comfortable to wear.
- ✓ Made of polymer materials to effectively prevent foreign body impact and liquid spatter.
- ✓ The lenses are made of high-quality PET and high-transparent material with high clarity.
- ✓ Easy to adjust head band and one size fits all.

#### Disposable Face Mask

- ✓ Pleated style with ear loops.
- ✓ Made of polymer materials to effectively prevent foreign body impact and liquid spatter.
- ✓ 3- ply construction.
- ✓ 99% Bacterial Filter Efficiency
- Low breathing resistance.
- ✓ Latex-free and hypo-allergenic.
- ✓ Adjustable nose clip.

#### Disposable Gloves

- ✓ Sterilized by Gamma Radiation.
- ✓ Ambidextrous for quick and easy donning.
- ✓ Powder-Free to reduce allergic reactions.
- ✓ Fully textured palm and finger provides a good grip in wet or dry environments.
- ✓ Meets Federal and ASTM standards for protein content.
- ✓ Packed in paper pouches (2 gloves) with inner wallet.
