

AIRCRAFT DISINFECTION TUNNEL

AIRCRAFT DISINFECTION TUNNEL

FEATURES

AIRCRAFT DISINFECTION TUNNEL is a disinfecting passage for human use. It sprays the person passing through with high level disinfectant and sanitizer, killing 99.99% of virus, bacteria, mold, fungi, and spores. 100% Natural, no side-effects on human beings, we can convert any aircraft tunnel to Aircraft Disinfecting Tunnel.

USE

It can be used before the entry of airport after landing. It uses super oxidized water Hypochlorous acid (HOCl), manufactured from 100% natural resources, and is 100% safe for humans including kids, it does not have any toxic content.
